GAIL\_Internal

Dear sir,

Please find enhancement in YRXR008- Nomination Creation.

Modification in YRXR008

1. Remove the highlighted line from NOTE.

**Purchase Nomination - ONGC B2B | Period: 01.06.2026 -15.06.2026**

Batch Change Create Nomination

**Note:**  
 1. Nomination will not be created for line items with State GJ  
 2. Nomination will not be created for Materials excluded for Allocation  
 3. Nominations will be created in SME3

2. Enable Nomination upload for State GJ
3. For a location and gas day for state GJ, there maybe two line items of material GMS\_NG-NWWI-Z with different ONGC Material. To determine the OA for each line item,
  - a. Get the list of OA for the state GJ as per the existing logic.
  - b. For ONGC Material = C2C3, populate the latest OA whose description contain 'C2C3 for the plant. EKPO-TXZ01.
4. Give a button for Mass changing of Outline Agreement (just like 'Batch Change' Button).
  - a. Populate line items for combination of Location, Material, ONGC Material, State.
  - b. When user enters a PO against one of the combination and presses ok, the PO will get changed for all line items of the same combination in the ALV.
  - c. Also, provide Search Help option in the 'OA Change'. Use the same implemented logic as below.

Already implemented logic for OA determination:

Fetch Outline Agreement for a material, state, gas day:

- a. Pass the material and Location ID in MATNR and LOCID field of OIJ\_EL\_DOC\_MOT with DELIND NE X, selecting those Outline Agreements (VBELN) with GAS DAY between FROM1
- b. Pass STATE in T001W table with WERKs = 2\*.
- c. Now pass the list of Outline Agreement (from step a) in EBELN field to EKPO with LVORM NE X and WERKS (as step 2).

However for State = GJ and ONGC Material = C2C3, filter out the OA list based on EKPO-TXZ01 containing 'C2C3'.

With Thanks,

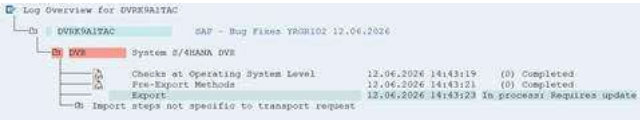

Shreyosi De

GAIL\_Public

Dear Sir,

Variant in DVR TEST3:

- I am not able to select any checkbox

- Kindly add another check.

The OA was changed to 4000001499 and the details were accordingly fetched. Check whether OA Plant is present in T001W with REGIO = State on the screen. If not, make it red

With thanks,  
Shreyosi De

Done  
Kindly check and confirm

On Tue, Jun 9, 2026 at 3:42 PM Shreyosi De (श्रेयसी डे) <[shreyosi@gail.co.in](mailto:shreyosi@gail.co.in)> wrote:

Dear Sir,

- Kindly keep 'Batch' after 'Outline Agreement' column.
- Also display OA Batch. Logic: CHARG of EKBE table.

OA Transport System: TSYST of OIJ\_EL\_DOC\_MOT table.

- On changing the Outline Agreement, corresponding fields (Starting with OA) not changing.

cid:image002.png@01DCF82E.AFF93080

- Correction needed in the logic provided in the trailing mail.

For sy-tcode <> 'YRGG015' AND sy-tcode <> 'YRXR008' AND lv\_yrgg015 <> 'X', do not assign LOCID and MATNR (line 448 and 449). Assignment of TSYST is required.

cid:image003.png@01DCF82E.AFF93080

- Correct the Note:

Nomination will not be created for line items with State GJ

cid:image004.png@01DCF82E.AFF93080

Dear Sir,

Please find the following observations from O&M Side:

1. QAR case. Variant Test1. If I try to create the below nomination, dump comes

cid:image005.png@01DCF82E.AFF93080

2. Skip the code from line 429 to 450, if the T-code calling the program is YRGG015 or YRXR008 or if called by background scheduling.

cid:image006.png@01DCF82E.AFF93080

3. Correct the Note:

Nomination will not be created for line items with State GJ

cid:image004.png@01DCF82E.AFF93080

4. Add few more columns in the display in the highlighted region.

cid:image007.png@01DCF82E.AFF93080

OA Location = Pass Outline Agreement in OIJ\_EL\_DOC\_MOT and display LOCID  
OA Plant = WERKS field of EKPO Table  
OA Material = MATNR of EKPO  
OA Description = TXZ01 field of EKPO.

These fields should fetch data also when the Outline Agreement is changed on screen. Also, if possible, keep the colour of these four column different for better visibility.

With Thanks,  
Shreyosi De

**Subject:** RE: Purchase Nomination Creation

Dear Sir,

Please find few more changes:

- No Nomination is getting created via Background checkbox.

cid:image003.png@01DCF7FC.C33741F0

- The 'Background' checkbox to be visible for only those User IDs who have role 'ZO\_CC\_EHS.GMS\_ROLE'
- Add a new column QTY (MBG) in the highlighted area. Display QTY\_IN\_MBG of YRGA\_CST\_PUR

cid:image004.png@01DCF7FC.C33741F0

- Add a Header in ALV. Add note
  1. Nomination will not be created for line items with State 'GJ'
  2. Nomination will not be created for the Materials excluded for Allocation
  3. Nominations will be created in SM3

With Thanks,

Dear Sir,

Few more observations

- For default batch on the screen, change in logic. Show the batch that is present in MCHA table with LVORM= Blank for Werks = Werks in Outlir

cid:image017.png@01DCF7FC.C33741F0

- On attempting nomination creation for 01.07.2025/ DAHEJ, system is throwing error (correctly). On pressing back, the below message is coming

cid:image018.png@01DCF7FC.C33741F0

- Please grey out the checkboxes as per logic.

cid:image019.png@01DCF7FC.C33741F0

- The highlighted box is coming as ticked whereas it is not so in the table YRGA\_CST\_PUR. However, for nomination creation lines belonging to

cid:image020.png@01DCF7FC.C33741F0

- On clicking the search help in the 'Batch Change' button, an intermediate screen is coming. Please check.

cid:image021.png@01DCF7FC.C33741F0

New Requirement:

- Add Two more columns Nomination Key & Nomination Item as the last two column.

Logic: Pass the Outline Agreement and Gas Day to OIJNOMI table in DOCNR and IDATE field with DELIND NE X and display the Nomination Key and Sel Checkbox for all the line items greyed.

User should not be able to create Nomination through this functionality if Nomination against C location and Gas day exists.

cid:image022.png@01DCF7FC.C33741F0

- Also once nomination is created and user presses back, the Nomination Key and Nomination Item should be updated on the screen and accordingly

Let's schedule another meeting to resolve the points.

With Thanks,

Shreyosi De

hi

below changes are done

- 1. The lines with zero qty are not coming. These lines should appear in the list but their selection checkbox to be kept disabled.
- 2. Also show the line items pertaining to GJ but keep their selection checkbox disabled.
- 3. Add column: EXCLUDE | STATE| ONGC ID.

kindly confirm nomination creation and batch logic once more

On Tue, May 5, 2026 at 5:53 PM Shreyosi De (श्रेयसी डे) <shreyosi@gail.co.in> wrote:

The logic for Outline Agreement and Batch is being checked.

Kindly start working on 'Create Nomination' and 'Mass Batch Change' option.

With Thanks,

Shreyosi De

GAIL\_Internal

Dear Sir,

W.r.t to the trailing mail, following changes have been done in the CST Purchase Nomination program.

- Point 1 regarding creation of Purchase Nomination has been resolved.
- The associated details of Outline Agreement are reflected in green.

- When Outline Agreement is changed on screen, the associated details are re-fetched. The line will turn red if there is difference between Location ID and OA Location ID or Mater

The logic for creation of Nomination for Gujarat is being explored.

Kindly check and provide confirmation for further transport to PDR.

With Thanks,  
Shreyosi De

**Subject:** RE: SAP Development/Enhancement Requirement (Domestic Gas Purchase State-wise Allocation on CST Basis) | Purchase Nomination Upload from System

Dear Shreyosi,

The Functionality has been tested and observations are as follows:

1. Purchase nominations are not getting uploaded in case some of the nominations are already uploaded on the Purchase Nomination screen. Issue may be resolved.
2. In case an outline agreement is changed manually, the system is not verifying the relevant parameters (location, material, transport system/plant etc) of that outline agreement and creating nominations st

As discussed, following changes are also suggested going forward:

1. Outline Agreements related parameters (description, location, material, trans sys, plant or any other parameter as deemed fit) may be added to the columns in the purchase nomination screen in order to f
2. Outline Agreements for Gujarat may also be auto-fetched based on purchase contract description (C2C3 in case of NWG for ONGC C2C3 plant). In case of ambiguity in fetching from system, the outlin
3. Provisioning for updating Outline Agreements in one go for multiple days may also be incorporated.

**Subject:** RE: SAP Development/Enhancement Requirement (Domestic Gas Purchase State-wise Allocation on CST Basis)

Dear Sir,

A new functionality, YRXR008, has been created to create the purchase nomination of NG Gas being purchased on CST Basis in GJ. The nomination shall be created based on the allocati

On executing YRXR008, the below screen will open where user can enter multiple Location and Gas Day range.

The previous FN will be displayed by default but user can change the date range, however it cannot exceed a single FN.

On entering the data and pressing 'Execute', the list of data which was saved after running 'Allocation' via YRGG015 is displayed. The system automatically determines the Outline Agree Agreement is present against only one plant linked to the State. The functionality also displays the latest Batch created for that material and plant (present in the Outline Agreement).

User can change the batch by clicking on the F4 / Search help option provided in the Batch field.

For changing the batch of all materials populated in the display, 'Batch Change' Option is given at the top. On clicking the 'Batch Change' option, it displays default batch against all materials. Pressing 'Apply Batch'. The batch will be applied to all the lines with the material code.

User has to tick the checkbox for which Nominations are to be created. On pressing checkbox for a 'Gas Day' and 'Location', all line items pertaining to the Gas Day and Location will be :  
On pressing 'Create Nomination', Nominations for the selected line items are created.

The Nomination Key and Item will be displayed, on pressing 'Back'

IF Outline Agreement is not present in any of the line items, then functionality will not allow Nomination Creation against the rest and give error as below.

All Validations in YRGR040, Purchase Nomination functionality is also applicable for this functionality and in case of any such errors, the below error log (same as that in YRGR040) will a

If Nomination is already present, then another Nomination against the same input cannot be created.

As discussed, we shall be adding another button in YRGG015 (first Screen) to access this T-code directly.

However, for now, kindly test the functionality using T-code YRXR008 and share observations, if any.

With Thanks,  
Shreyosi De

**Subject:** RE: SAP Development/Enhancement Requirement (Domestic Gas Purchase State-wise Allocation on CST Basis)

GAIL\_Internal

Sir,

Further to trailing email, the program for distribution of domestic natural gas supplied by ONGC to different states on CST basis has been further enhanced. Please note the following:

1. As required, the program will now round up the daily volumes allocated to different states to the next higher digit at the second place after decimal. For example, 100.123 will be rounded up to 100.130, case volume allocated to Gujarat is 0).
2. The program can now accept C2C3 stream data from ONGC separately from NWG stream. The C2C3 volumes will solely be allocated to Gujarat and its row will remain disabled on the screen even und stream.

3. Under the option Send Data > Through Email or Download Data option, Excel and PDF files will now be created separately for each Location ID entered by the user.

Based on discussions, the program has been moved to PDR.

GAIL\_Internal

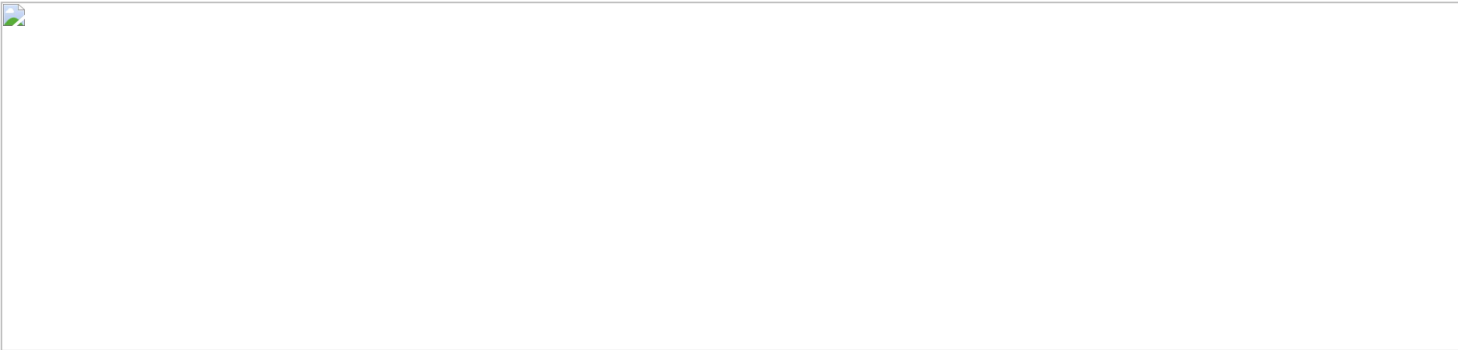

Sir,

Subsequent to discussions today, the following master data entries have been created in production server. You are requested to review the same and let us know in case of any observations:

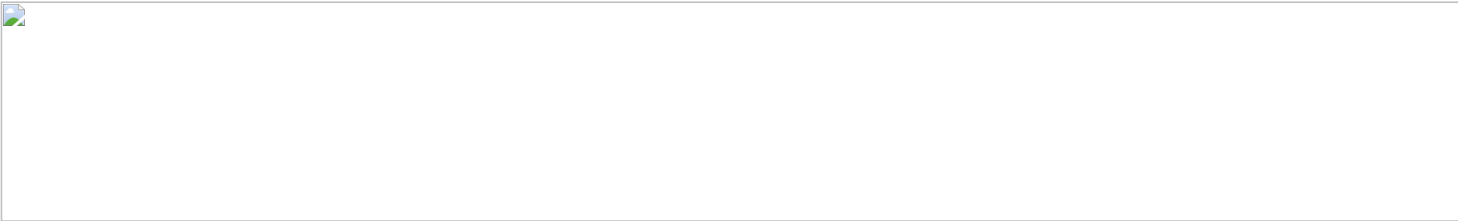

1. ONGC CTP ID to GAIL Location ID mapping: Refer attached email from ONGC wherein they had confirmed the CTP IDs and stream names under which receipt data would be pushed from their end. E

2. ONGC Stream to GAIL Material Code mapping: Drawing reference from the attached email of ONGC, each gas stream of ONGC delivered at a purchase location ID in GAIL has been mapped to a material code. The mapping is as follows:
- a. Non-CST indicator appearing as X against a few records suggest that such GAIL Location ID-GAIL Material Code combinations will not participate in the allocation exercise. However, ONGC v purchase location with those of the streamwise data provided by ONGC.
  - b. Two more fields, Static Material and Region Code, appearing on the screen may be ignored for the time being as they would be utilized at a later stage.

3. Exclusion mapping: As advised, the states/UT Kerala, Tamil Nadu and Puducherry have been excluded from the ambit of the allocation exercise for all purchase locations and all material codes.

With this, the master data mapping is complete. Should you require any further clarifications, please let us know.

GAIL\_Internal

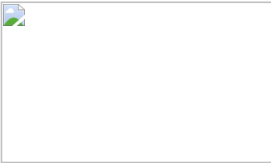

Madam/Sir,

Consequent to discussions on 10.04.2026, the program to derive state-wise allocation of natural gas to be purchased from ONGC on CST basis has been made available in the production server. You are requested to

Further to the trailing email, it is clarified that the replica of PDR receipt data for FFN November 2025, as mentioned in the email below, was sent by ONGC through B2B PI to our QAR server.
